

Max e ProTM

POOL PUMP

Strong performer, quiet leader

Max e ProTM

POOL PUMP

Quick-lock, `1/4 turn`, see through lid

Stainless steel motor shaft

50mm quick-connect barrel unions

6" extra large capacity trap

Elevated, sound dampening motor base

Exclusive Dura-GlasTM composite resin

FEATURES & BENEFITS

Nothing but the best

Pentair's reputation for top-of-the-line equipment is unparalleled in the industry. Every feature of the Max-e-Pro has been engineered to answer the needs of today's savvy buyer: high efficiency, low maintenance and reliability. The Max-e-Pro nails it on all counts.

A lot less maintenance

When cleaning is required, an easy twist of the wrist gives you access to the ultra-sized strainer basket. Simply empty the basket, re-attach the Quick-LockTM trap lid and twist it one click to the right.

Quiet heavy duty motor

Reliability and quality are integral benefits of this continuously rated motor. Low noise levels result in peaceful pump operation.

Precision-fit internal components

And a specially designed sound-dampening base make the MAXePROTM extremely quiet. So your piece of paradise remains peaceful.

Built for the long-run

Only the finest materials are used to build lasting quality into every maxepro. On the outside, Pentair's exclusive Dura-GlasTM composite resin weathers temperature extremes. On the inside, the shaft and seal are constructed with Stainless steel and the impeller is made with Noryl[®] to stand tough against harsh chemicals.

50mm barrel unions

Quick and easy to install, creating a perfect seal while allowing pump removal without flexing pipework.

Electrical approvals

Rest easy knowing your Pantera pool pump has passed the Australian Standard AS/NZS 60335.2.41 for safety and is approved for installation within the wetted zone of the pool area.

OPERATING CONDITIONS

Suitable for pumping clean non-aggressive liquids without solids or fibres in suspension.

Fluid:	Water
Maximum working pressure:	360 kPa
Water (Swim Pool) temp range:	5°C-40°C
Ambient temperature:	55°C maximum

MOTOR

Type:	TEFC 2 pole continuously rated
Nominal speed:	2900 rpm
IP rating:	IP55
Insulation class:	Class F
Thermal overload:	Internal, auto reset
Frequency:	50Hz
Voltage:	230-240V Single phase 400-415V 3 phase
Bearing type:	Deep groove ball bearing (with double contact lip seal)

MATERIALS

Component	Material
Pump Casing	30% Glass Filled Polypropylene
Impeller	30% Glass Filled Polypropylene
Baffle	40% TF Polypropylene
Diffuser	20%Glass Filled ABS
Yoke	20%Glass Filled ABS
Drain Plug	Polypropylene
Shaft Sleeve	20% Glass Filled Polycarbonate
Motor Shaf	303 Stainless Steel
End Shield	Enamel Painted Aluminium
Hair & Lint Pot O-Ring	Low Friction Nitrile
Hair & Lint Pot Lid	Polycarbonate
Casing O-Ring	Nitrile
Barrel Union O-Ring	Nitrile
Barrel Union	ABS
