## **Owner's Manual**

for the Installation and Service of the

---

## **Maverick Tune Up Kit**

---

### **Replacement Wearable Parts**

Should the installer or owner be unfamiliar with the correct installation or operation of this type of equipment you should contact the distributor/manufacture for the correct advice before proceeding with the installation or operation of this product. The pump operator or owner must be provided with this owner's manual.

## Tools Required

The only tool required is a 5mm Allen Key or Screwdriver with a 5mm Hex Bit.

## Instructions

1. Undo the cover clip.
2. Detach the top cover to expose the cleaner internals.

3. Remove the turbine cover.

4. Insert allen-key into wheel screw and turn anti-clockwise. Remove both wheels.

5. Remove reversing drive assembly and drive shaft.

6. Remove forward drive gear.

7. Remove forward drive shaft and one of two bearings. 8. Remove second bearing.

9. Assemble forward drive kit, like so:

10. Insert forward drive kit.

11. Insert forward drive gear.

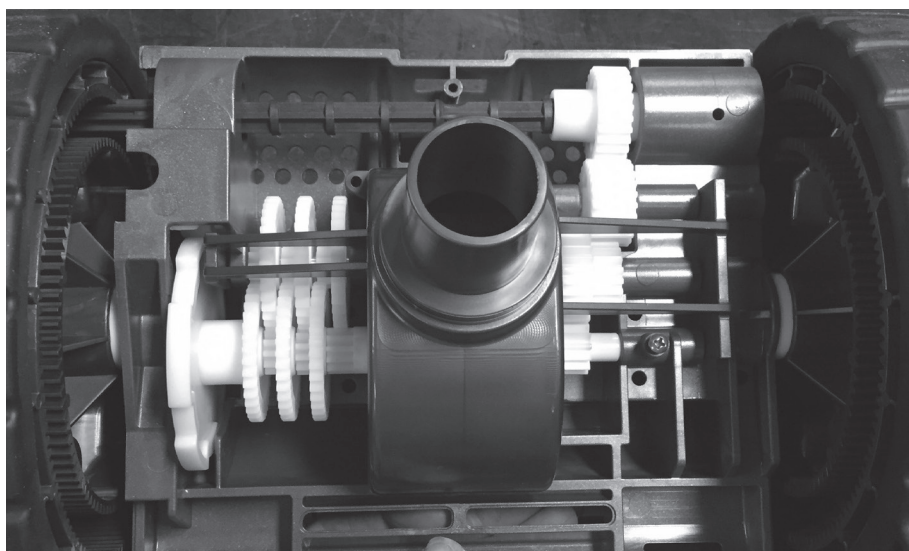

12. Insert reversing drive assembly and drive shaft.

13. Push reversing drive assembly in, so that wheel engages with cam.

14. Install turbine cover.

15. Replace cover and clip on.
